Description of Property and Eligibility Determination *(Use continuation sheet if necessary and attach map and photo)*

Structure 02080X0 is a parabolic concrete arch that spans Cattail Creek in Anne Arundel County. The arch continues into the sidewalls and has a low rise-to-span ratio. The structure consists of a single 3 1/2' span, with unornamented, solid wingwalls, and a metal guard rail across the top of the structure to address public safety issues. The structure has no known construction date and has undergone past modifications and repairs. Aside from the installation of the guard rail, in 1995 rehabilitation work installed a fish ladder at the east end outlet and Class II riprap downstream. In addition, any original parapets no longer exist.

The historic context report, Small Structures on Maryland's Roadways, indicates that concrete arches are not common on the state's roadways and most date between the second decade of the twentieth century and World War II. The report also notes that the State Roads Commission's Standard Plans did not include concrete arches, and the beam-and-slab and pipe quickly became standard in lieu of the concrete arch. The report's consideration of the National Register eligibility of concrete arches determines that they could be eligible under Criterion C if all character-defining elements are present. These elements include an arch ring, barrel, concrete parapet or railing, abutments, and

wingwalls. Structure 02080X0 has suffered past additions and alterations, and the remaining design elements are compromised by the surrounding additions of the metal guard rail, the road surface, and the fish ladder. The history of alterations and the lack of remaining character-defining elements have diminished the integrity of structure 02080X0.

Given these considerations, structure 020820 is not eligible for inclusion in the National Register of Historic Places.

**PRESERVATION VISION 2000; THE MARYLAND PLAN
STATEWIDE HISTORIC CONTEXTS****I. Geographic Region:**

- ☐ Eastern Shore (all Eastern Shore counties, and Cecil)
☒ Western Shore (Anne Arundel, Calvert, Charles,
Prince George's and St. Mary's)
☐ Piedmont (Baltimore City, Baltimore, Carroll,
Frederick, Harford, Howard, Montgomery)
☐ Western Maryland (Allegany, Garrett and Washington)

II. Chronological/Developmental Periods:

- ☐ Rural Agrarian Intensification A.D. 1680-1815
☐ Agricultural-Industrial Transition A.D. 1815-1870
☐ Industrial/Urban Dominance A.D. 1870-1930
☒ Modern Period A.D. 1930- Present
